

REMARKS

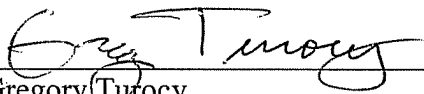

Claims 1-21 are pending in the application. Claim 1 has been amended to better describe certain aspects of the invention. Additionally, the specification has been amended as indicated on page 2 to correct minor typographical errors. All amendments are fully supported by the original claims and specification, and the amendments do not introduce new matter. For example, support for the term "a C1-C6 haloalkylsulfonyl group" is found in, for example, claims 8, 15, and 16. Support for the term "nonafluoro-2-butyl iodide" is found in the specification, for example, a paragraph on page 21, line 24. Support for the amendment to claim 1 is found in the specification, for example, on page 10, lines 10-15. One skilled in the art would read the specification as amended. Favorable examination in light of the amendments is respectfully requested.
